

ACTIVITY 7:

MEMBERS:

ENRIQUE, JHON MARK A.

CANLAS, CLYDE

RECTO, JOHN ELVIN

FROMANES, PATRICK

Scenario: Pokelicious Motor Vehicle Registration Schedule (Traffic Monitoring Application) A local government unit are currently in a process of developing a traffic management system to help them in maintaining the traffic in their city especially during peak seasons. As part of the developing team that they hired, your team were ask to proposed a feature that simplify the vehicle registration schedule. They want the feature to be simple and easy to use with minimal variable inputs from the vehicle owner such as vehicle type, plate number, smoke emission test certificate/number, and third party liability insurance certificate/number. The output should be simple as follows "Your motor vehicle with Plate No. ____ is QUALIFIED for RENEWAL on < SPECIFY THE MONTH & YEAR> until ." Other details are as follows:
