[Folder icon] [Checkmark] [Image icon]	11/07/2025														
2. If a specific file or folder is selected, it can be moved and a pop up should appear. A pop up where you will relocate the file or folder.															
3. Have the ability to share the file or folder.															

4. Automated Workflow	
5. Folders can be shared with teams or groups.	
6. Import files via email	
7. Account-wide audit log	
Features of the DMS we don't have	
1. The Upload button is in its permanent place wherever you navigate through the website	

2. The FolderIt have sections	
3. The FolderIt DMS have options in the dropdown of the upload button	
4. It has options to export to xlsx, ods, csv and pdf.	

5. It has an option for changing the columns of the folders and the files.	 A screenshot of a web application interface showing a dialog box titled "Select columns for folder Inbox". The dialog box has a list of columns: Name, Tags, Date, Due date, Created, Updated, Signed by, Document ID, and Size. The "Name" column is selected and highlighted in blue. The dialog box is overlaid on a blurred background of a file management interface.
6. Has metadata	 A screenshot of a web application interface showing a page titled "Manage custom metadata fields". The page has a table with columns: Name, Description, Type, Multiple, and Actions. There is one row with the name "Sample meta", description "sample", type "String", and a gear icon in the Actions column. The page is part of the "University of Makati" metadata management system.
7. Has Tags	 A screenshot of a web application interface showing a page titled "Manage tags". The page has a form with a "Name" label and a text input field containing "New_tag". There is a gear icon in the bottom right corner of the form area. The page is part of the "University of Makati" metadata management system.
8. Automated file Numbering	 A screenshot of a web application interface showing a dialog box titled "Automated File Numbering". The dialog box contains the text "You can set up a numbering scheme for files in this folder." and three radio buttons: "Auto (inherit)" (selected), "Active", and "Inactive". There is a blue "SAVE" button in the bottom right corner. The dialog box is overlaid on a blurred background of a file management interface.
9. It has a duplicate option when selecting the file or folder.	 A screenshot of a web application interface showing a toolbar with four icons: a folder icon, a document icon, a trash can icon, and a duplicate icon. Below each icon is a label: "Move", "Download", "Delete", and "Duplicate". The "Delete" label is highlighted in blue. The toolbar is part of a file management interface.
