Single-Phase Electric Motor Rewinding Activity Rubric

Criteria	Total Points	Excellent	Very Good	Satisfactory	Needs Improvement
1. Data Gathering and Initial Inspection	4	5	4	3	2
	5 pts	Complete, accurate, well-analyzed data	Mostly accurate with minor omissions	Adequate data, some analysis flaws	Incomplete or unclear
2. Stripping and Cleaning	4	5	4	3	2
	5 pts	Clean removal, no damage	Slight residue, no damage	Mostly clean, minor flaws	Sloppy or incomplete
3. Slot Liner Formation	3	5	4	3	2
	5 pts	Precise and snug fit	Slight gaps or wrinkles	Mostly consistent	Loose or misaligned
4. Coil Insertion and Insulation	6	8	6	5	3
	8 pts	Properly placed, well insulated	Minor insulation flaws	Functional, some misalignment	Inconsistent or loose
5. Termination and Connection	6	7	6	5	3
	7 pts	Correct, tight, neat, labeled	Slight labeling or routing flaws	Acceptable with minor errors	Loose or unclear
6. Coil Tying and Slot Securing	4	5	4	3	2
	5 pts	Uniform, tight, secure	Slight unevenness	Generally secure	Inconsistent or loose
7. Assembly and Final Testing	8	10	8	6	4
	10 pts	Fully functional, neat, all tests passed	Minor test issues, clean build	Operates with flaws	Partially functional
8. Safety Procedures	3	5	4	3	2
	5 pts	All PPE, safe practices, tidy area	Minor lapses in PPE or safety	Basic PPE and awareness	Inconsistent safety use

Individual Task Participation Rubric

Criteria	Score	Excellent (2.5 pts)	Good (2 pts)	Satisfactory (1.5 pts)	Needs Improvement (1 pt)
1. Initiative and Task Ownership Voluntarily starts assigned work - Prepares tools and materials - Organizes own workflow - Takes responsibility for tasks	1.5	Always initiates and completes tasks independently and on time	Often starts tasks with minimal prompting	Sometimes needs guidance and reminders	Rarely initiates or avoids responsibility
2. Technical Involvement Winding coils - Stripping and cleaning wires - Wiring and connections - Assembly and mechanical fitting - Testing with measuring tools	1.5	Performs all technical tasks with high skill, accuracy, and safety	Completes most technical tasks with minor errors	Contributes with assistance; moderate errors observed	Limited participation; lacks skill or interest
3. Team Collaboration and Communication Shares tasks and tools - Communicates clearly - Listens actively - Offers help when needed	1.5	Collaborates actively, supports teammates, and communicates well	Generally, works well with others, communicates adequately	Occasionally cooperative; needs encouragement	Disruptive or disengaged from team effort
4. Safety and Work Cleanliness Uses PPE properly - Handles tools safely - Maintains clean and organized area - Follows safety protocols	1.5	Strictly follows all safety and cleanliness standards	Usually safe and tidy, with few lapses	Sometimes forgets safety or leaves area messy	Unsafe work habits or messy station
