

COLLEGE OF COMPUTING AND INFORMATION SCIENCES

Summary of Comments and Suggestions

Program	BCS Major in Application Development	Year/Section	IV - BCSAD
Project Title	VERIFYID: ONLINE BARANGAY SYSTEM WITH IDENTITY AUTHENTICATION THROUGH INTEGRATION OF IMAGE RECOGNITION		
Researchers	Canlas, Clyde D.	Formanes, Patrick	
	Enrique, Jhon Mark A.	Recto, John Elvin P.	

Panel Member	Comments and Suggestions	Signature and Date
PROF. ERA MARIE F. GANNABAN	● Document: ○ Add to the scope and limitation the prone to error in dropdown for precinct number ○ The system is not aligned with the functional requirements stated in the paper. ○ Identify the turnaround time in requesting certificates. ○ Redirect endpoint locations in the API. ○ Convert the design and develop the web base to modules so it could meet the requirements. ○ Explain further the experimental development.	

UNIVERSITY OF MAKATI

J.P. RIZAL EXTENSION, WEST REMBO MAKATI CITY

COLLEGE OF COMPUTING AND INFORMATION SCIENCES

	○ Include the deliverables of the planning phase. ○ In the planning phase, it should indicate how the system looks. ○ Fix the user story, use case, ERD and DFD diagram. ○ Determine the coordinates of x and y and determine the intersection over union. ○ Show the computation of the centroids. ○ Move pseudocode in the appendix. ○ 16 out of 16 based on system requirements. ○ Remove redundant parts. ○ Run all non-functional testing to 1,000 trends. ○ Remove conclusion from chapter 3. ○ Remove real time monitoring.	
PROF. LESTER G. DIAMPOC	Document: ● Include the accepted valid IDs in the face scan. ● Verify who will be in charge in case both the secretary and the record keeper are unavailable. ● Fix the interpretation and the computation in the evaluation. ● Remove the test plan in chapter 3.	
PROF. ABELARDO T. BUCAD	Document:	

UNIVERSITY OF MAKATI

J.P. RIZAL EXTENSION, WEST REMBO MAKATI CITY

COLLEGE OF COMPUTING AND INFORMATION SCIENCES

	• Results should be in chapter 4. • Double check the metrics of each algorithm. • The result of 1.000 is overfitting.	
PROF. ALEXANDER PAHAYAHAY (Technical Adviser)	Document: • Suggested include the computation for 2D and 3D.
