About this manual

- This user manual is designed to provide a detailed guide on the features and functionality of Mellow, a task management application.
- The content in this manual may vary based on the app version and updates.
- Please read this manual before using Mellow to ensure proper and efficient use.
- Some features, options, and settings mentioned in this manual may be subject to updates or may not be available in all versions.
- The interface and functionality described here are based on the default settings of Mellow.
- Images and illustrations are for reference purposes and may differ from the actual application.
- Content is subject to change without prior notice. For the latest version of this manual, refer to the official Mellow documentation.

Copyright

This manual is protected under international copyright laws. No part of this manual may be reproduced, distributed, translated, or transmitted in any form or by any means, electronic or mechanical, including photocopying, recording, or storing in any information storage and retrieval system, without prior written permission from Mellow.

The features, specifications, and contents of this manual are subject to change without prior notice due to updates and improvements to the application.

Trademarks

- Mellow and the Mellow logo are trademarks or registered trademarks of Mellow.
- All other trademarks and registered trademarks are the property of their respective owners.

Caution for Data

Mellow shall not be liable for any data loss. Please take precautions to avoid losing any important data by regularly backing up your tasks and information.

Operating System and Software Support

For the Mobile App:

- Mellow is designed and optimized for Android devices.
- Installing Mellow on an unsupported or modified operating system may result in functionality issues, lack of technical support, or data loss.
- Modifying the app or running it on an unofficial OS may void support and could lead to data corruption or app malfunctions.
- For the best experience, use Mellow on officially supported Android versions to ensure stability and compatibility.

For the Admin Website:

- The Mellow Admin Panel is a web-based platform accessible only through a web browser.
- It is designed to work best on modern browsers such as Google Chrome, Mozilla Firefox, Microsoft Edge, and Safari.
- Using an outdated or unsupported browser may result in performance issues, missing features, or security vulnerabilities.
- To ensure the best experience, always use an up-to-date browser and a stable internet connection when accessing the Mellow Admin website.

Recommended Screen Resolutions

For the Mobile App:

- Mellow is optimized for Android devices with a minimum screen resolution of 1080x1920 (FHD).
- Using resolutions lower than this may affect the display quality and usability of certain features.
- Some UI elements may not function correctly on unsupported screen resolutions.

For the Admin Website:

- The Mellow Admin Panel is designed for desktop and laptop screens with a minimum resolution of 1366x768.
- For the best experience, a resolution of 1920x1080 (FHD) or higher is recommended.
- Using a smaller screen or lower resolution may result in UI scaling issues and difficulty in navigating the admin interface.

Product Capacity Representation

Storage Capacity Representation

For the Mobile App:

- Mellow requires at least 200MB of free storage space for installation.
- The device must have a minimum total storage capacity of 8GB to ensure smooth operation.
- A portion of the device's storage is used by the operating system and system files, which reduces the available space for apps like Mellow.

For the Admin Website (Web-Based Platform):

- The Mellow Admin Panel is accessible only through a web browser and does not require storage space on your device.
- A stable internet connection and a modern web browser (such as Google Chrome, Firefox, or Edge) are required for the best experience.
- Some admin functionalities may require downloading reports or logs, so ensure your device has sufficient storage if needed.

Product Capacity Representation

Memory (RAM) Capacity Representation

For the Mobile App:

- Mellow requires at least 4GB of RAM to run efficiently.
- A portion of the RAM is used by the Android system and background processes, which reduces the actual available memory for the app.
- Devices with higher RAM will provide a smoother experience, especially when managing multiple tasks within the app.

For the Admin Website (Web-Based Platform):

- The Mellow Admin Panel runs on a web browser and does not directly consume device RAM like a mobile app.
- However, for the best experience, it is recommended to use a device with at least 4GB of RAM to handle multiple browser tabs and ensure smooth navigation.
- Performance may vary depending on the number of active browser extensions, background applications, and system resources.

Mobile Application (User) Layout

The Mellow mobile app is designed to help students efficiently manage tasks, collaborate in spaces, and set personal or academic goals

Onboarding

Number/Name	Description
1. Sign in Button	Guides returning users to tap and log into their existing account.
2. Sign Up Button	Indicates that new users should tap to create an account and proceed with registration.

Mobile Application (User) Layout Sign In

Number/Name	Description
1. Back Arrow	Allows users to navigate back to the previous screen.
2. Email Text field	Input field where users enter their registered email address.
3 Password Text field	Input field where users enter their password for authentication.
4. Hide and Show Password Icon	Toggles password visibility to help users check their input.

Mobile Application (User) Layout Sign Up

Number/Name	Description
5. Forgot Password Link	Redirects users to reset their password if they have forgotten it.
6. Sign In Button	Confirms credentials and logs the user into their account.
7. Sign Up Link	Redirects new users to the registration page to create an account.

The image shows a mobile application sign-in screen with a blue header and a white body. The header contains a back arrow (1), the text 'Welcome Back!', and a subtitle 'Log back into your account and manage your tasks.' The body contains an 'Email' input field (2), a 'Password' input field (3) with a toggle icon (4), a 'Forgot Password?' link (5), a blue 'SIGN IN' button (6), and a 'Don't have an account? Sign Up' link (7). The entire screen is outlined in red.

Mobile Application (User) Layout Sign Up (Personal Information)

Number/Name	Description
1. Back Arrow	Allows users to navigate back to the previous screen.
2. First Name Text Field	Input field for users to enter their first name.
3. Middle Name Text field	Input field for users to enter their middle name (optional).
4. Last Name Text field	Input field for users to enter their last name.
5. Birthday Text Field	Displays the user's selected birthdate. When tapped, it opens the calendar view for date selection.

The image shows a mobile application screen titled "Create your Account". The screen has a blue header with the title and a subtitle "Start creating your account by inputting your personal details." Below the header is a white form area with the following elements:

- 1**: A back arrow in the top left corner of the blue header.
- 2**: The "First Name" text input field.
- 3**: The "Middle Name (Optional)" text input field.
- 4**: The "Last Name" text input field.
- 5**: The "Birthday" text input field.
- 6**: The "Gender" dropdown menu.
- 7**: A blue "NEXT" button.
- 8**: A calendar icon next to the "Birthday" field.
- 9**: A "Sign In" link at the bottom right, preceded by the text "Already have an account?"

Mobile Application (User) Layout Sign Up (Personal Information)

Number/Name	Description
6. Gender Dropdown	Allows users to select their gender from a list of options.
7. Next Button	Proceeds to the next step of the sign-up process.
8. Calendar Icon	When tapped, it also opens the calendar view to select a birthdate.
9. Sign in Link	Redirects users to the sign-in page if they already have an account.

The image shows a mobile application sign-up form titled "Create your Account". The form is enclosed in a red rectangular border. It features a blue header with the title and a subtitle "Start creating your account by inputting your personal details." Below the header, there are five input fields: "First Name", "Middle Name (Optional)", "Last Name", "Birthday" (with a calendar icon), and "Gender" (with a dropdown arrow). A blue "NEXT" button is positioned below the input fields. At the bottom right, there is a link "Sign In" preceded by the text "Already have an account?". Numbered arrows point to various elements: 1 points to a back arrow in the top left; 2 points to the "First Name" input field; 3 points to the "Middle Name (Optional)" input field; 4 points to the "Last Name" input field; 5 points to the "Birthday" input field; 6 points to the "Gender" dropdown; 7 points to the "NEXT" button; 8 points to the calendar icon; and 9 points to the "Sign In" link.

Mobile Application (User) Layout Sign Up (College Information)

Number/Name	Description
1 . Back Arrow	Returns to the previous screen in the sign-up process.
2. University Dropdown	Allows users to select their university from a list.
3. College Dropdown	Displays available colleges based on the selected university.
4. Program Dropdown	Lists academic programs under the selected college.

The image shows a mobile application screen titled "Create your Account" with a subtitle "Input the necessary details about your university." The screen contains several dropdown menus and a "NEXT" button. Numbered callouts (1-7) point to specific elements: 1 points to a back arrow, 2 points to the "University" dropdown, 3 points to the "College" dropdown, 4 points to the "Program" dropdown (which shows "No programs available"), 5 points to the "Year" dropdown, 6 points to the "Section" dropdown, and 7 points to the "NEXT" button.

SIGN UP

Number/Name	Description
1 . Back Arrow	Returns to the previous screen in the sign-up process.
2. Checkbox	Users must check this box to agree to the terms and conditions before signing up.
3. Hide and Show Password Icon	Toggles password visibility to help users verify their input.
4. Policies Link	Redirects users to view the app's terms, conditions, and privacy policies.
5. Sign up Button	Completes the registration process but remains disabled until the checkbox is checked.

Mobile Application (User) Layout

Task Preference

Number/Name	Description
1. Start	Proceed to the task preference.

Mobile Application (User) Layout

Task Preference

Number/Name	Description
1. Previous	Returns to the previous screen in the task preference.
2. Options/Multiple Choice	Multiple choice or option to choose their preference, according to the question.
3. Submit	Redirects users to the home page.

The image shows a mobile application interface for 'Task Preferences'. It features a blue header with the title 'Task Preferences'. Below the header is a white card containing three sections of multiple-choice questions. The first section asks 'What time of day are you most productive?' with four radio button options: Morning (6AM - 12PM), Afternoon (12PM - 6PM), Evening (6PM - 12AM), and Late Night (12AM - 6AM). The second section asks 'How do you prefer to complete your tasks?' with three radio button options: One at a time (Focused), Multitasking (Switching Between Tasks), and Combination of Both. The third section asks 'How do you prioritize your tasks?' with two radio button options: Deadline Urgency and Importance of Task (Impact on grades/projects). At the bottom of the card are two buttons: 'Previous' and 'Submit'. Numbered annotations are present: '1' points to the 'Previous' button, '2' points to the second question section, and '3' points to the 'Submit' button.

Task Preferences

What time of day are you most productive?

- ☐ Morning (6AM - 12PM)
- ☐ Afternoon (12PM - 6PM)
- ☐ Evening (6PM - 12AM)
- ☐ Late Night (12AM - 6AM)

How do you prefer to complete your tasks?

- ☐ One at a time (Focused)
- ☐ Multitasking (Switching Between Tasks)
- ☐ Combination of Both

How do you prioritize your tasks?

- ☐ Deadline Urgency
- ☐ Importance of Task (Impact on grades/projects)

Mobile Application (User) Layout Dashboard

Number/Name	Description
1. Plus Icon	Allows users to add a new task, space, or other relevant items.
2. Bell Icon	Opens the notifications panel to view alerts and updates.
3. Profile Picture	Displays the user's profile image and navigates to the Settings page when tapped.
4. Task Analytics	Shows insights and statistics related to task completion and productivity.
5 Recent Space Cards	Displays recently accessed collaboration spaces for quick access.

Mobile Application (User) Layout Dashboard

Number/Name	Description
6. Task List	Shows a list of ongoing, finished, or pending tasks.
7. Dashboard Icon	Navigates to the main dashboard screen displaying an overview of tasks and spaces.
8. Task Management Icon	Opens the task management section for organizing and scheduling tasks.
9. Collaboration Icon	Directs users to the collaboration space for team-based task management.
10. Profile Icon	Navigates to the user's profile and account details.

Mobile Application (User) Layout Task Creation (Personal)

Number/Name	Description
1 . Back Arrow	Returns to the previous screen without saving changes.
2 . Task Name Text Field	Input field where users enter the name of the task.
3. Due Date Field	Displays the selected due date for the task and allows users to choose a date.
4. Calendar Icon	Opens the calendar view for selecting a due date.
5. Start Time Field	Allows users to set the start time for the task.

Mobile Application (User) Layout Task Creation (Personal)

The image shows a mobile application interface for creating a task. It features a blue header with a back arrow and the title 'Create a Task'. Below the header are input fields for 'Task Name' and 'Due Date' (with a calendar icon). A section for 'Start Time' and 'End Time' includes clock icons. A 'Description' text field follows. A green-bordered box contains three sliders for 'Priority', 'Urgency', and 'Complexity', each with labels from 'Very Low' to 'Very High'. At the bottom is a blue 'Create Task' button and a green star icon.

Numbered annotations point to the following elements:

- 1: Back arrow
- 2: Task Name input field
- 3: Due Date input field
- 4: Calendar icon
- 5: Start Time input field
- 6: End Time input field
- 7: Description text field
- 8: Priority, Urgency, and Complexity sliders
- 9: Create Task button
- 10: Green star icon

Number/Name	Description
6. End Time Field	Allows users to set the end time for the task.
7. Description Text Field	Input field where users provide additional details about the task.
8. Priority, Urgency, and Complexity Slider	Adjustable sliders to set the priority, urgency, and complexity levels of the task.
9. Create Task Button	Saves the task and adds it to the task list.
10. Algorithm Button	Applies the selected task scheduling algorithm for optimal task management.

Mobile Application (User) Layout Task Creation (Duo)

Number/Name	Description
1. Share Space Dropdown	Allows users to select a space to share with others.
2. Share With Dropdown	Enables users to choose specific individual to assign the task to.

The screenshot shows a mobile application interface for creating a shared task. The form is titled 'Create a Shared Task' and includes a back arrow at the top left. The form fields are as follows:

- Task Name:** A text input field.
- Shared Space:** A dropdown menu with 'Duo Test' selected. An arrow labeled '1' points to this field.
- Share with:** A dropdown menu. An arrow labeled '2' points to this field.
- Due Date:** A date picker icon.
- Start Time:** A clock icon.
- End Time:** A clock icon.
- Description:** A text input field.
- Priority:** A slider with labels: Very Low, Low, Medium, High, Very High.
- Urgency:** A slider with labels: Very Low, Low, Medium, High, Very High.
- Complexity:** A slider with labels: Very Low, Low, Medium, High, Very High.
- Create Task:** A blue button at the bottom right.
- Green Star Icon:** A small green star icon next to the 'Create Task' button.

Mobile Application (User) Layout Task Creation (Space)

Number/Name	Description
1. Select Space Dropdown	Allows users to choose a space from the available options.
2. Add Members Button	Adds selected members to the chosen space.
3. Selected Member Card	Displays the currently chosen member for the task and if the X in the card is clicked, the member is removed as being chosen.

The screenshot shows the 'Create a Task' screen in a mobile application. It features a blue header with a back arrow and the title 'Create a Task'. Below the header, there are several input fields and sliders. A red box highlights the main content area. Three numbered callouts are present: 1 points to the 'Select Space' dropdown menu, 2 points to the 'Add Members' button, and 3 points to the 'Lorna Dane' member card with an 'X' icon.

Number/Name	Description
1. Back Arrow	Returns to the previous screen.
2. Total Members and Tasks	Displays the total number of members and tasks in the space.
3. Settings Icon	Navigates to the space settings page.
4. See More Button	Expands the task list and recent activities for more details.
5. Create Task Button	Opens the task creation screen within the space.

Mobile Application (User) Layout Space Settings

Number/Name	Description
1. Back Arrow	Returns to the previous screen.
2. Space Details	Displays information about the space, including its name, description, and list of members.
3. Add Members Button	Opens the member invitation screen to add new members to the space.
4. Delete Space	Permanently removes the space and all associated tasks.

Mobile Application (User) Layout

Calendar Widget

Name/Number	Description
1. Pen Icon	Indicates an editable field, allowing users to modify the content.
2. Year Dropdown	Allows users to select a specific year from a dropdown list in the calendar view.
3. Next Arrow	Navigates to the next month in the calendar.
4. Back Arrow	Returns to the previous month in the calendar.
5. Selected Day	Highlights the chosen date in the calendar view.

Mobile Application (User) Layout

Calendar Widget

Name/Number	Description
6. OK Button (Calendar)	Confirms the selected date and applies it to the birthday text field.
7. Cancel Button (Calendar)	Closes the calendar without selecting a date.
8. Calendar Icon	Opens the calendar view for date selection.
9. Enter Date Text Field	Displays the manually entered or selected date.
10. OK Button (Date Entry)	Confirms the manually entered date.
11. Cancel Button (Date Entry)	Discards the entered date and closes the date picker.

Mobile Application (User) Layout

Add Members Widget

Name/Number	Description
1. Member Selection (Not Selected)	Displays a list of members with an option to select them.
2. Member Selection (Selected)	Highlights the chosen member, indicating selection.
3. Cancel Button	Closes the selection menu without making changes.
4. Select Button	Confirms the selected members and applies the changes.

Mobile Application (User) Layout

Task Creation Selection Widget

Name/Number	Description
1. Create a Personal Task Button	Create a Personal Task Button - Initiates the creation of a task for individual use.
2. Create a Duo Task Button	Starts the process of creating a task shared between two users.
3. Create a Space Task Button	Allows users to create a task within a collaboration space.
4. Cancel Button	Exits the task creation menu without saving changes.

Web Application (Admin) Layout

The Mellow mobile app is designed to help students efficiently manage tasks, collaborate in spaces, and set personal or academic goals

Sign In Page

The image shows a sign-in page for the Mellow application. It features a white card on a light blue background. The card has the Mellow logo at the top, followed by 'Email' and a text input field (callout 1), 'Password' and a text input field with a toggle icon (callout 2), a 'Forgot Password?' link (callout 3), and a blue 'Sign In' button (callout 4). A callout 5 points to the toggle icon in the password field.

Number/Name	Description
1. Email Text Field	Input field where users enter their registered email address.
2. Password Text Field	Input field where users enter their account password.
3. Forgot Password Link	Redirects users to the password recovery process.

Web Application (Admin) Layout

The Mellow mobile app is designed to help students efficiently manage tasks, collaborate in spaces, and set personal or academic goals

Sign In Page

Number/Name	Description
4. Sign In Button	Authenticates the user and grants access to the app.
5. Hide and Show Password Icon	Toggles password visibility for easier input verification.

Web Application (Admin) Layout

Forgot Password Page

Name/Number	Description
1. Email Text Field	Input field where users enter their registered email address.
2. Reset Password Button	Sends a password reset link to the entered email.
3. Back To Sign In Link	Redirects users back to the sign-in screen.

Web Application (Admin) Layout Dashboard Page

Name/Number	Description
1. Navigation Side Bar	Provides access to different sections of the admin dashboard.
2. Graphs	Displays visual analytics related to users, tasks, and spaces.
3. Profile Picture Dropdown	Clicking on the profile picture reveals a dropdown menu with the logout option.

Web Application (Admin) Layout Dashboard Page

Name/Number	Description
4. Summary Cards	Displays the total number of users, tasks, and spaces.
5. Latest Activity Cards	Shows the five most recently registered users and submitted feedbacks.

Web Application (Admin) Layout

Users Page

Name/Number	Description
1. Search Bar	Allows users to search for specific entries.
2. Dropdown for Entries Display	Lets users select how many entries are displayed per page.
3. Summary Cards	Displays the total number of users, tasks, and spaces.
4. Export to CSV and Excel Button	Enables users to export data in CSV or Excel format.

Web Application (Admin) Layout

Users Page

Name/Number	Description
5. Sorting Dropdowns	Provides options to sort data based on different criteria.
6. View User Details Button	Opens a detailed view of a selected user's profile and activity.
7. Next and Previous Buttons	Allows navigation between pages of data entries.

Web Application (Admin) Layout

Colleges Page

Name/Number	Description
1. College Link	When clicked, expands into a dropdown list displaying all programs within the selected college along with the number of students enrolled in each program.

The screenshot shows the MELLOW web application interface. On the left is a sidebar with navigation links: HOME, Dashboard, MANAGEMENT (Users, Colleges), and REPORTS (Feedbacks). The 'Colleges' link is highlighted. The main content area is titled 'Colleges' and contains a 'Colleges List' table. The table has two columns: 'College' and 'Number of Students'. The first row is highlighted with a green border and contains the text 'College of Business and Financial Sciences (CBFS)' and the number '0'. Below this row are several program names, each with a blue circular icon containing a '0'. The table is followed by four more college entries: 'College of Innovative Teacher Education (CITE)', 'College of Computing and Information Sciences (CCIS)', 'College of Construction Sciences and Engineering (CCSE)', and 'College of Engineering Technology (CET)', each with a '0' in the 'Number of Students' column. At the bottom of the table, there is a 'Rows per page' dropdown set to '5' and a 'Page 1 of 4' indicator.

College	Number of Students
College of Business and Financial Sciences (CBFS)	0
Bachelor of Science in Office Administration	0
Bachelor of Science in Entrepreneurial Management	0
Bachelor of Science in Financial Management	0
Bachelor of Science in Business Administration major in Marketing Management	0
Bachelor of Science in Business Administration major in Human Resource Development Management	0
Bachelor of Science in Business Administration major in Supply Management	0
Bachelor of Science in Business Administration major in Building and Property Management	0
Associate in Sales Management	0
Associate in Office Management Technology	0
Associate in Entrepreneurship	0
Associate in Supply Management	0
Associate in Building and Property Management	0
College of Innovative Teacher Education (CITE)	0
College of Computing and Information Sciences (CCIS)	2
College of Construction Sciences and Engineering (CCSE)	0
College of Engineering Technology (CET)	0

Using the Mellow Mobile App

User Interface Overview

Mellow's user interface is designed for ease of use and efficiency. The key components include:

- **Home Screen** – Displays an overview of upcoming tasks, current progress, and recent activities.
- **Navigation Bar** – Contains icons for accessing key features like:
- **Task History Icon** – Shows completed and past tasks.
- **Bell Icon** – Displays notifications for tasks, shared spaces, and updates.
- **Profile Picture** – Navigates to profile settings.
- **Task List View / Eisenhower Board** – Switches between different task organization views.
- **Dashboard** – Shows statistics on tasks, goals, and space activity.
- **Task Management Screen** – Allows users to create, manage, and prioritize tasks.
- **Collaboration Space** – Dedicated space for group work and shared tasks.

Using the Mellow Mobile App

Account Creation

Sign Up Process

1. Tap Sign Up on the onboarding screen.
2. Enter Personal Details (First Name, Last Name, Birthday).
3. Enter College Details (University, College, Program, Section).
4. Enter Contact Information (Phone Number, Email, Password).
5. Review details and tap Create Account.
6. Verify email by clicking on the link sent to the provided email.
7. Log in using your credentials.

Sign In Process

1. Open Mellow and tap Sign In.
2. Enter Email and Password.
3. Tap Sign In to access your account.

Forgot Password

1. Tap Forgot Password? on the sign-in screen.
2. Enter your registered email.
3. Click Reset Password, and a link will be sent to your email.

Using the Mellow Mobile App

Creating and Managing Tasks

Creating a Task

1. Tap the Add Task Button (+).
2. Fill in the task details:
 - Task Name
 - Due Date
 - Start & End Time
 - Description
 - Priority, Urgency, Importance, Complexity (adjustable via sliders).
3. Tap Create Task to save it.

Deleting a Task

1. Long press a task.
2. Select Delete from the options.

Task Completion

Mark tasks as completed by tapping the checkbox next to them.

Using the Mellow Mobile App

Creating and Managing Tasks

Filtering Tasks

Users can filter tasks based on:

- All Tasks
- Personal Tasks
- Shared Tasks
- Collaboration Space Tasks

Scheduling and Time Management

Mellow provides tools to schedule and manage time effectively:

- Calendar View – Shows all scheduled tasks in a week/month format.
- Time Selection – Users can set start and end times for tasks.
- Deadline Tracking – Displays urgent and upcoming deadlines.

Task Prioritization and Optimization

Mellow integrates intelligent algorithms for task management:

- Analytic Hierarchy Process (AHP) – Helps users rank tasks by importance.
- Improved Jellyfish Algorithm (IJA) – Evaluates task urgency and complexity.
- Hyper Min-Max Task Scheduling (HMMTS) – Optimizes task scheduling.

Using the Mellow Mobile App

Notifications and Alerts

Mellow provides real-time alerts to keep users informed:

- Task Reminders – Alerts before deadlines.
- Collaboration Updates – Notifications for shared tasks and spaces.
- Missed Deadline Alerts – Alerts for overdue tasks.
- Customizable Notifications – Users can enable/disable alerts from settings.

Collaboration Features

Mellow allows users to collaborate on tasks effectively:

- Spaces – Create spaces for group work.
- Assigning Tasks – Tasks can be assigned to specific team members.

Using the Mellow Admin Website

Admin Dashboard Overview

The Mellow Admin Panel provides an overview of the system:

- Navigation Side Bar – Access to different sections (Users, Tasks, Analytics, etc.).
- Graphs & Reports – Visual analytics of user activity and task completion.
- Summary Cards – Display total number of users, tasks, and spaces.
- Latest Activity – Shows recent user registrations and feedback.

Managing Users

View user details.

Monitoring Task Analytics

The admin panel allows tracking task statistics:

- Completion Rates – Percentage of tasks completed vs. overdue.
- User Engagement – Active users vs. inactive users.
- Task Distribution – How tasks are categorized based on priority.

Using the Mellow Admin Website

Viewing Reports and Insights

Admins can generate and export reports:

- Export to CSV/Excel – Allows admins to download data.
- Filter Reports – View data for a specific time frame, user, or category.
- Insights & Trends – Provides key insights on task efficiency and user engagement.

College and Programs List

Clicking the College Link opens a dropdown that lists:

All Programs under that college.

Number of students enrolled in each program.

System Requirements

Mobile (Flutter App)

- Mobile (Flutter App)
 - Minimum Requirements:
 - OS: Android 7.0 (Nougat)
 - RAM: 2GB
 - Storage: 200MB free space
 - Processor: Quad-core 1.4 GHz
 - Internet: Required for real-time sync with Firebase
 - Recommended Requirements:
 - OS: Android 10+
 - RAM: 4GB or higher
 - Storage: 200MB free space
 - Processor: Octa-core 2.0 GHz or higher
 - Internet: Wi-Fi or 4G/5G for seamless performance

Website (Admin Module)

- Minimum Requirements:
 - OS: Windows 10, macOS 10.14 (Mojave), or Linux
 - Browser: Chrome 90+, Firefox 85+, Edge 90+
 - RAM: 4GB
 - Storage: 500MB free space
 - Internet: Stable connection (5 Mbps)
- Recommended Requirements:
 - OS: Windows 11, macOS 12 (Monterey), or Latest Linux Distro
 - Browser: Chrome 110+, Edge 100+, Firefox 100+
 - RAM: 8GB or higher
 - Storage: 1GB free space
 - Internet: High-speed (10 Mbps+) for optimal performance

Installation & Setup

Installing the Mellow Mobile App

Easily manage your tasks on the go by installing the Mellow mobile app from the Google Play Store.

Steps to Install:

1. Open the Google Play Store on your Android device.
2. Search for "Mellow Task Manager".
3. Tap Install and wait for the app to download.
4. Once installed, open the app and sign in or create an account.

Accessing the Mellow Admin Website

The Mellow Admin Panel allows administrators to manage users, tasks, and app settings efficiently.

Steps to Access:

1. Open a web browser on your computer or mobile device.
2. Go to mellow-admin.online
3. Log in using your admin credentials.

Admin Features:

- User and task management
- Performance analytics

Technical Information

Data Storage and Management

- Database: Firebase Firestore (Cloud-based NoSQL Database)
- Storage: Firebase Storage for media files (images, documents)
- Authentication: Firebase Authentication (Email & Password, Google Sign-In)
- Backup & Sync: Real-time synchronization for tasks, user data, and notifications

1. Storage Capacity Representation

Mobile App

- Local Storage: Uses SharedPreferences or SQLite for temporary caching
- Cloud Storage: Firebase Firestore and Firebase Storage
- Average Data Size per User: ~5MB (tasks, settings, preferences)

Admin (Web Dashboard)

- Database Usage: Stores user data, tasks, analytics, feedback reports
- Cloud Storage: Firebase Storage for file uploads
- Estimated Data Usage per Admin: Varies based on user activity

Technical Information

2. Memory Usage

Mobile App

Minimum RAM Usage: ~150MB (on idle)

Peak RAM Usage: ~300MB (with active tasks and Firebase sync)

Admin (Web Dashboard)

Minimum RAM Usage: ~200MB (basic browsing)

Peak RAM Usage: ~500MB (handling large datasets and analytics)

Website (Admin Module)

- Recommended Screen Resolutions
 - Mobile App
 - Minimum: 720 x 1280 (HD)
 - Recommended: 1080 x 1920 (Full HD) or higher
 - Admin Dashboard (Website)
 - Minimum: 1366 x 768 (HD)
 - Recommended: 1920 x 1080 (Full HD) or higher

Operating System and Software Support

Supported Android Versions (Mobile App)

- Minimum: Android 9.0 (Pie)
- Recommended: Android 11+

Supported Browsers and Platforms (Admin Dashboard)

- Google Chrome (v90+)
- Mozilla Firefox (v85+)
- Microsoft Edge (v90+)
- Safari (v14+)
- Operating Systems: Windows 10/11, macOS 10.14+, Linux

Mellow Security, Support, and Legal Information

Security and Privacy User Data Protection

- Encryption: Data is encrypted in transit and at rest using Firebase Security Rules.
- Authentication: Secure login via Firebase Authentication (Email/Password, Google Sign-In).
- Access Control: Role-based access for users and admins to prevent unauthorized actions.
- Data Backup: Cloud-based backups ensure data recovery in case of failure.

Admin Access and Permissions

- Admin Dashboard: Restricted access to authorized administrators only.
- User Management: Admins can manage user accounts, verify identities, and handle reports.
- Task & Data Monitoring: Admins can oversee activity logs and analytics for system integrity.

Mellow Security, Support, and Legal Information

Troubleshooting & Support Common Issues and Solutions

1. Login Issues

- Ensure correct credentials.
- Reset the password via the "Forgot Password" option.
- Check for internet connectivity.

2. Task Synchronization Issues

- Refresh the app or restart the device.
- Ensure the app has proper permissions (Storage & Network).
- Check Firebase server status.

3. Notification Not Showing

- Enable push notifications in device settings.
- Check if notifications are enabled within the app.
- Reinstall the app if the issue persists.

4. Admin Dashboard Not Loading

- Clear browser cache and cookies.
- Use a supported browser (Chrome, Firefox, Edge).
- Verify internet connection and firewall settings.
